

“Whatever you do to the least of my people, that you do onto me.”

Mark 25:40

Fill the Ark!

The 5th grade students are embarking on a new service project. This project, sponsored by Heifer International, raises money to purchase livestock and teach sustainable farming techniques to families around the world.

Our goal is to “fill an ark” with animals to donate to this charity. In the main hallway, a bulletin board, created by the 5th graders, shows the animals we hope to adopt. We will name each animal that has been purchased.

Next Thursday, we will be sending home a calendar for each child and an ark bank to collect money. The calendar contains 4 weeks of daily ideas for families to contribute pocket change to this project.

During this season of Lent, we ask you to consider using this opportunity to both serve the global community and spend time with your children.
